FURNITURE TOPS

Passport products are necessarily composed by a wood-coloured top (2 colours available); the rest is wholly lacquered with a sole colour (8 colours available) and one finish exclusively - the Passport finish.

Colour, finish, dimension or other modifications shall be budgeted and imply, at least, a 30% price increase. When comparing to standard products, delivery time will also be increased.

Listing prices are not binding: they can be altered, based on product upgrading or rising productions costs, without previous notice. Finish colours can be modified as well, due to technical and practical constraints, without prior notice.

Colour samples are merely indicative, therefore, they might be slightly different from the final product.
